Husband Of Mrs. Betty  
Stroder Also Injured;  
\$2700 Damage To Home

A Madison woman, Mrs. Betty Stroder, 29, was burned severely and her husband, Marshall Stroder, 42, suffered less serious burns about 11 a.m. Saturday in an explosion of an oil heating stove in the living room at the Stroder home, 906 Greenwood street.

Mrs. Stroder, whose clothing caught fire, is in critical condition at St. Elizabeth Hospital with first, second and third degree burns to her back, chest, legs, arms and hands. Her husband was treated for first and second degree burns to both hands and right leg, and Perkins for burns to the fingers of his right hand.

Stroder, a truck driver, had been repairing the stove, and according to Madison firemen, had removed valves, causing a direct flow of fuel from a 55-gallon tank outside the house. Some oil had flowed on the floor, and the resulting pressure from the tank caused the explosion, Fire Chief E. J. Miller said. He estimated damage to the five-room frame house at \$2700, including \$700 to the contents.

Stroder and his wife were in the living room at the time the stove exploded. Perkins, a Granite City Engineer Depot employee, who resides across the street at 907 Greenwood street, had been helping them, but was in the driveway at his home when the fire started.

Mrs. Stroder, who was dressed in street clothes, was enveloped in flames. Her husband tried to beat them out with his hands and then pushed her outside and told her to roll on the ground. A passerby dashed up and took off his coat to smother the flames.

He was identified as Steve Owca, 65, of 1836 Fourth street. Owca, retired grocer, had driven his auto in front of the stove at 832 Greenwood street, now run by his son-in-law, and noticed the flames. He ran to the scene and pulled off his machine coat to smother the flames. He was not injured, though his coat was scorched.

Perkins also had run up and was burned trying to smother the flames with a seat cover from the Stroder automobile. The Stroder's two daughters, Mary Nell, 9, and Nona Kay, 6, had been told to stay out of the living room when the fire started.

They were in the kitchen and ran out through a rear door when the fire started. From Kay had to be held back by neighbors, when she attempted to re-enter the house after learning her mother was ablaze.

Fire Chief Miller pointed out that oil heating stoves are complicated and urged persons whose stoves need repairs to call for an expert to do the work.

A teenage boy suffered injuries about 4:30 p.m. Sunday when his auto crashed into a utility pole on St. Clair avenue near Nameki road and knocked down hot electrical wires.

Zeffo was first taken to the hospital by police to be treated for injuries to his right arm, back and jaw. The officers said he was traveling west on St. Clair, when his car veered to the right and hit the pole, causing the wires to fall on an auto belonging to John Bloodworth, 4083 Breckenridge lane. Riding with Zeffo was Terry Stockman, 15, of 3013 Edgewood drive. Zeffo's car was towed away.

## Improvement of Broadway In Venice Ready To Begin

Resurfacing of the center section of Broadway is to begin Monday, Feb. 15, and preliminary work will start this week, it was announced at Friday night's Venice city council meeting.

The project will include removal of street car tracks and installation of a sewer line down the middle of the street.

Work to be started this week by the General Contracting Co., contractor for the project, involves construction of a manhole at Second street and Broadway.

Noting that the Venice council has not yet decided what procedure to follow in obtaining statement of river pollution, Mayor John E. Lee asked the sanitation committee of Aldermen Oscar King, James Miller and Hank Swedia to meet and submit a recommendation for the Feb. 19 council meeting.

Large Minimum Wage Boost  
The council went on record as urging the state and Congress to increase the minimum hourly wage law from \$1 to \$1.25, May or Lee urged support of the proposal.

Stop signs halting east and west traffic on College street at Weaver street were voted by the council, which also asked that the Dow Metal Products Co. request its employees to exert caution at the intersection.

Several collisions have occurred there recently, Alderman Will Griggs said. The council transferred \$270 from the McKinley Bridge's Missouri tax fund to the bridge's general administrative fund to meet increased social security costs.

Payment For Street Work  
Payments for resurfacing of Brown street and McKinley and Collinsville avenues totaled \$11,161 to Reese Construction Co. and \$1336 to Sheppard, Morgan and Schwaab, city engineers.

Mayor Lee reported that Capt. Frank DeWitt is serving as acting chief while Police Chief Robert Trower is on vacation. A monthly police report showed 90 arrests and \$385 fines in January.

A January treasury report listed a \$173,127 previous balance. \$1794 receipts, \$67,334 disbursements, \$109,588 new cash balance, \$585 in transit and a \$114,208 bank balance.

## Robt. Edmonds, Secretary, Seeks Re-election April 9

Robert M. Edmonds, chief industrial engineer at Granite City Steel Co. and member of the Granite City school board, announced today that he will be a candidate for re-election April 9. The filing period is from Feb. 24 to March 19.

In announcing his candidacy, Edmonds said, "When I was elected to the Granite City school board of education three years ago, it was on the pledge to work for a sound, businesslike approach to the management of our school system—in order to provide the best education possible for the children of Granite City."

"Most people will agree, I believe, that public confidence in the Granite City board of education is now at a very high level. In the last three years, the board has eliminated a substantial amount of waste in the operation of the Granite City schools in order to make the maximum amount of every dollar spent for the schools available for the education of the school children."

"Purchases of supplies and equipment have been put on a competitive bid basis with consequent cost savings. Administrative efficiency has been improved. Population growth has been met by building three new elementary schools, a junior high school, and a substantial addition to the high school."

"Now that the foundation for a sound, long-term program has been completed, the board will have to consolidate its gains and move toward a new program to lay out a program to meet the continuing growth in enrollment, which is increasing at a rate of about 600 a year."

**Lights Go Out, Hits Tree**

A St. Louis trucker was injured Sunday 3 a.m. Friday when the headlights of his pickup truck went out and the vehicle left the roadway of U. S. Bypass 40-48 and crashed into a tree at Mitchell.

Charles H. Gunn, 39, who was traveling alone, was taken by ambulance to St. Elizabeth Hospital, where he was treated for cuts to his face and left knee and bruises to his left arm and jaw.

Gunn, a serviceman for a motor freight firm, was returning from a service call and was hauling a load of tires. It was estimated that when the headlights went out, his truck crossed the roadway to strike a tree about a quarter-mile west of the Mitchell railroad crossing.

**Costoff Has Not Sought Local Coin Machine Permits**

No application for Madison vending machine permits has been received from Murphy Vending, Inc., St. Louis, newly incorporated to do business in Illinois at 1225 Madison avenue, Madison, Mayor Stephen Maers told the Press-Record today.

A charter issued by the Illinois secretary of state lists Costoff as president of the firm, the mayor said. Costoff's family is associated with operation of the Starlight Tavern at the 1225 Madison avenue address, and Costoff is Democratic committeeman of Venice township Precinct Nine. He has been on the East Side Levee and Sanitary district employees' payroll.

The vending firm's president is listed as Martin Aboushe, St. Louis, believed to be a brother of a St. Louis alderman and also of St. Louis Mayor Leavelle.

A Democratic politician, Aboushe describes the Illinois charter as an expansion move and says it is planned to begin operations immediately. His firm's cash machines were removed from St. Louis public schools last year after it was disclosed that they were related to a board member.

Reporting that he has contacted Police Chief Barney Framdorf to obtain information, Mayor Maers told the Press-Record, "I found out that this fellow is a good friend of Chris. He does business with him and stops by."

"I think Chris is a victim of circumstances and doesn't understand. I told him that as registered agent, he will be responsible for anything the firm does in Illinois."

The mayor said a formal investigation of the vending business operators' backgrounds will not be started unless a Madison permit is sought.

Relating that local firms provide cigar machines and juke boxes for Madison establishments, Maers said there are no pinball machines in Madison because a "\$250 tax stamp is needed to satisfy the state. Everyone knows what goes on when there are pinball machines." Federal gambling stamps jeopardize the license of Illinois taverns.

The Murphy firm has been chartered to manufacture, store and deal in all kinds of automatic vending machines and coin-operated devices.

A fellow may be a good loser, but he seldom admits that the best man won.

**5-Vehicle Crash**

Mrs. Doris Keel, 44, of 1619 Delmar avenue, was injured Thursday afternoon in a three-vehicle crash involving two autos and a truck at 22nd street and Madison avenue. The trucker, Randal McNulty, 50, of St. Louis, was charged with failure to yield right-of-way and was freed on \$11 cash bail.

Police said the truck jumped the curb at the northeast corner after the crash and knocked down a stop sign, a street sign and a portable electric traffic signal which was out of service.

Mrs. Keel was injured when her car driven south on Madison avenue by Charles Keel, 24, of 3208 Kirkpatrick, Horns, was struck by the truck. She was treated at the hospital for two cuts to her left knee.

Police reported the truck, traveling east on 22nd street, had stopped for a boulevard sign and then proceeded to cross Madison avenue, colliding with the front of Keel's auto and then crashing into the front of an auto driven west on 22nd street by Alvin Jones, 26, of 2503 Grand avenue, before jumping the curb.

Miss Virginia Northington, 18, of 1715 Collinsville avenue, Madison, suffered an injury to her right hand in a traffic accident Thursday night in the 2000 block of Madison avenue. She was charged by police with operating a motor vehicle without a driver's license and was freed on \$16 cash bail.

Police said she was traveling south on Madison avenue and then involved in an accident with a southbound car operated by Thomas F. Gibson, 22, of East St. Louis. The officers reported damage to the right rear of Gibson's car and to the left front of Miss Northington's auto.

**Charged With After Hours Liquor Sale**

William R. Free, 28, of Rural Route One, pleaded innocent Saturday morning before Police Magistrate Gasparovic to a charge of selling alcoholic drinks after hours and was freed on \$500 property bond for a trial Feb. 26.

County authorities said Free was tending bar at the Club Bayou on Sunday morning, Jan. 24, when Ottilio Valencia Jr., 33, of 1800 Spruce street, was shot in the abdomen outside the club's rear building. Prior to the shooting, about 10 a.m., Valencia and a companion had been served drinks in the tavern and identified Free as the bartender, authorities said.

A warrant has been served on Terry Thwaitt, 31, ex-convict who lives in a trailer near the tavern on Chestnut Slough road, charging him with assault with intent to kill.

Thwaitt has requested a preliminary hearing and is free on \$3000 bond, pending a hearing before Magistrate Gasparovic Feb. 19.

Valencia has recovered from the wound and has been released from St. Elizabeth Hospital where he underwent surgery for removal of the slug.

## Miss Sandra Gail Juda And Roger Jos. Bowler Are Wed

Trinity Methodist Church was the scene Saturday evening for the candlelight wedding of Miss Sandra Gail Juda and Roger Jos. Bowler, with Rev. James T. Bryant officiating at the seven o'clock ceremony. Woodward ferns and candelabra graced the sanctuary, and the altar held bouquets of white flowers. The former Miss Juda is the daughter of Mr. and Mrs. Jerome Juda, 2140 Lynch avenue, who gave a reception at the church for 250 guests immediately following the ceremony.

Burning tapers in tall candelabra illuminated the center aisle, down which the bride was escorted by her father who gave her in marriage.

She wore a pure silk organ gown designed in classic styling. The Sabrina neckline was outlined with seed pearls and her capped sleeves of lace were very brief. Her fitted bodice buttoned down the back with tiny covered buttons.

Her very bouffant skirt was worn over a Christian Dior long skirt and detailed throughout the skirt were vertical polka dots. The skirt was held up by a long length train in back. Her long veil of imported French tulle, was held in place with a jeweled Queen's tiara. She carried a bouquet of white orchids and stephanotis with lilies of the valley on a white ribbon.

Mrs. Thomas Rensing of Collinsville, a friend of the bride, was maid of honor. Her gown was of white chintilly lace over a pink bouffant skirt. A wide taffeta cummerbund and matching waist ending in a bustle bow at the back. Her colonial bouquet was composed of mint green carnations.

Misses Janice Collette and Gloriamann, served luncheon. The bridesmaids were grouped to match the honor attendant. All three wore bandeaux headpieces encrusted with iridescent pearls attached with brief veils.

Linda Susan Darling in her role of flower girl looked lovely in a floor length gown of white taffeta, overlaid with filmy net, which draped into swirls around the full skirt. Her jeweled headpiece matched her seated attendants and the center of the white basket of red rose petals. Michael Wayne Darling was the ring bearer, carrying a white satin pillow.

The bridegroom, son of Mr. and Mrs. Roger W. Bowler, of Rural Route One, was attended by his cousin, Robert McCue of Granite City, as his best man. William Hodge of Granite City and George Van Dyke II of Collinsville were the groomsmen. The bridesmaids were the girls, Claude Luth Smith, a friend, Claude Hill, Joseph Hill and Richard Harmon, his uncle, composed the usher corps.

Organ music during the ceremony was provided by Mrs. Russell West with Miss June Night.

## Realistic Study By Port District Has Revealed Need For An Illinois Airport

Success often is based on a realistic appraisal of abilities and needs. The conclusion reached is some times not the one originally hoped for, but a factual approach is the best procedure for an individual, business or public agency.

Many people, including Tri-City Regional Port District board members, have hoped that a major airport could be established within the Illinois Metropolitan Area, and they still have that hope. But the port district's realistic study of the proposal has shown that it would place a heavy burden on local taxpayers if the district proceeded on its own initiative. In view of this fact, the district has decided not to take the lead and has pledged its assistance and support to any existing or new metropolitan body able to assume the project.

Airport plans need to remain under serious study, because the district believes that most sites currently available in this area will be lost to residential and industrial developments within five years. Despite this possibility the fact is too many port agencies, and perhaps too much for any public body unless air passenger and freight companies are somehow brought into the picture. Cost during the early years would be for excess income tax and the reason to believe that airlines would risk breaking away from crowded Lambert Field unless they were convinced that any new airport was certain to be a success.

There is no doubt that more adequate airport facilities are needed in the area immediately adjacent to St. Louis, and that the need will grow within the next several years. The port district's study has helped pinpoint Illinois as the most logical and convenient location for a new airport. Now it is up to the entire area and the air industry itself to see how the need for an airport can best be met.

Some people think that it is tolerant to expect intolerance in others.

## Industry, Labor Support Solidifying Prospects Of Getting University Here

The \$6000 gift by Union Starch and Refining Co. toward purchase of land for a major state university between the Quad and Edwardsville is another link in a series of developments bolstering optimism that the university will be established soon.

Southern Illinois University also has been realigning its administrative staff with John E. Grinnell taking charge of day-to-day academic, business and student affairs at the 7619-student Carbondale campus, paralleling the role of Dr. Harold W. See at the 3039-student Southern Illinois University at Carbondale. President Delyte W. Morris will devote more time to planning and review of the university's total program, retaining another vice-president, Charles D. Tenney, on his personal staff.

The changes are regarded as a first step toward "re-examination of the entire program of the university and the establishment of new working relationships on and between its various campuses," the SIU board of trustees has announced. Such an evaluation of the university's role can be important, for it is now the second largest in the state and the 41st in the nation. Its 8248 full-time students exceed the

Northwestern University enrollment by 141. In terms of total enrollment, SIU is third in the state and 44th in the United States. Aided by its Southeastern Illinois campus, SIU had a meteoric full-time enrollment growth of 7.8% last year, compared to 4% nationally, and a 7.6% gain in total enrollment, compared to 3.6% in the nation.

With the University of Illinois Alumni association and many other organizations throughout the state announcing support of the Nov. 8 referendum, the \$25,000,000 land project appears to have a good chance of being approved by voters. In the meantime, the university and area industries, unions, other groups and individuals are doing all they can to speed the day when the new university opens.

There is no use trying to regulate the world — unless you can first demonstrate that you can regulate and control yourself.

## Attitude Larger Factor Than Cash In Consumer Spending

Estimates that American consumers will spend 20 billion dollars more for goods and services in 1960 than in 1959 are interesting not so much for their conclusion, but due to the way the answer was reached. There are many indications that this will be a good business year, but why this will be true is not as clear, aside from the general reasons of an expanding economy and population.

An answer to the "why" question has been sought because consumer buying does not always occur in the "right" year, such as happened in 1958. When buying declines for any reason, factories cut back their production and workers are laid off, further affecting the public's buying.

A team from the University of Michigan Survey Research Center has interviewed thousands of families scattered throughout the country and has found that human nature must be given major consideration in economic planning.

The researchers found that they can tell with a high degree of accuracy when people are going to stop and start buying, probably as much as six months in advance. The deciding factor seems not to be how much money is available for spending but what householder thinks of the foreign situation, the political outlook, the economy generally and what prices will do in the next few years.

What the consumer believes is going to happen to the country and world is decisive. Word of a major strike cuts his spending, even if he has no connection with it; on the other hand, if he anticipates good times, his expenditures will rise. Strongly enough, what he thinks his neighbor should do is a better clue to what he will do than what he thinks he himself ought to do.

Believing that they can predict what the consumer will do, the economists still do not know what makes him act this way. Finding that out is their next objective.

People who opposed price controls should not mind price increases.

## Wander Drugs Have Made Great Strides But Still Room For Achievement

It is probably correct to say that medical science has made greater strides in the development of new drugs in the past two decades than in the entire history of medicine. New wonder drugs are now used not only to relieve pain and distress, but also to remove the causes of disease.

The history of the wonder drugs began back in 1932 with the discovery of the sulpha drugs. Now the list includes in addition to the sulphas, penicillin, streptomycin, aureomycin, chloramphenicol, bacitracin, neomycin, streptomycin, penicillin, chloroquin, poldrin, and the hormone cortisone.

One out of every four persons stricken with pneumonia died 30 years ago, but today most victims are healed with penicillin in three or four days. With the development of isonicotinic acid hydrazide, some tuberculosis victims have literally been pulled back from the brink of the grave.

But even considering the great advances that medical science has made in the past few years, the challenge of finding drugs and serums that will combat other major diseases, such as cancer, which kills about 200 thousand people each year, still faces those who are writing medical history. Wonder drugs for the treatment of the common cold, high blood pressure, hardening of the arteries, and others, are still needed.

# Warrior Matmen Blank Belleville, Win Title For 3rd Year In Row

Belleville's Bill Ridings scored his 14th fall of the season, pinning Don Schuetter in 4:54 with a three-quarter Nelson. Ridings, 191 after Thursday's match, has a lightning chance to set a new Granite City record for most wins in a season. The present record is 23, set jointly by George Nemeth and Pat Cline, both in the 1958 season. Ridings already has set the record for most pins in one season, Dave Brewer, the other regular senior, was overwrought and sat out Thursday's match.

The closest bout was Larry Brisky's 7-6 win over Jerry Steele in the 95-pound class. Brisky trailed 5-2 after the first period, but rallied.

Other results: 112 — Feichlin (GC) over Wilson, 3-0; 120 — Parkinson (GC) over Eckert, 8-0; 127 — Bloodworth (GC) over Stevens, 13-0; 135 — Bravley (GC) over McDonald, 8-4; 138 — Fazio (GC) over Gain, 6-2; 145 — Ridings over Weber, 5-3; 165 — Wallace (GC) over Jackson, 8-0.

Lincoln Place Health Club moved into third place in the park district Senior Teenage basketball league a standing Thursday night with a 67-60 win over the last-place Five D's. The contest was played at the Nameless gym.

Mercie Mendoza sent home 25 points for the winners, who had an easier time in winning than the score would indicate, leading by as many as 15 points in the final stanza.

Don Howard had his best night of the season with 18 points. Dan Curtis scored 16 and Dave Stues had 13, all for the Five D's, but the losers lacked the overall scoring display by Health Club, now half a game ahead of St. Bartholomew's in the standings.

Lincoln Place grabbed an early advantage and never trailed, although the losers closed to within five points several times in the second half. The quarter scores were 15-12, 37-29 and 50-43.

# Records Fall As Warriors Down Edwardsville 101-87

## Williams Sets Conference Record With 46 Points; GCHS Defeats Flyers 70-63

With only three seconds remaining in the game, Rich Williams stepped to the line and made two free throws to give him 46 and the team 101 points, both believed to be record-breaking totals, as Granite City crushed Edwardsville here Saturday night 101-87.

Added to Friday's 70-63 win at East St. Louis, despite Don Brooks' 41 points for the losers, the Warriors pushed their season record to 28-4 and solidified their hold on second place.

Williams' 46 points are a school and Southwestern Conference scoring record, and the team total of 101 is the highest the Warriors have ever made, the GCHS athletic department announced.

The game was far beyond Edwardsville's reach midway through the third quarter when Granite City held a 60-36 lead, but Williams' and the team's record-breaking performance almost failed to materialize despite the fevered urging of more than 1500 fans.

**NEW RECORD HOLDER** of Southwestern Conference is Rich Williams, who scored 46 points against Edwardsville Saturday. The Warriors also set a record with 101 points, the most they have ever scored.

Warrior reserves allowed the Tigers to score almost at will in the last few minutes, adding Williams in getting his hands on the ball, but he started missing for the first time all evening. He finally hit several jump shots and the record was made.

Before his "cold streak," Williams had hit on 15 out of 24 shots. He finished with 50%, 18 of 36.

Bob Price also had a good night, making eight of 14 shots and 21 points. Frank Knight with 14, Harry Smith 6, Bill McDowell 4, Jim Ash 4, Carl Worham 2, Larry Farnham 2, Jim Simpson and Max Prusak 1 each, rounded out the scoring. Gene Vallina had 27 for Edwardsville.

The quarter scores of the rout were 23-19, 51-35 and 73-50. The Warriors shot 45% and Tigers 46% for the game.

Williams and Price combined to match Brooks in points Friday, Williams getting 20 and Price 18. The difference in the game was the supporting cast. Worham had 11 points and Jim Simpson 9 while the next highest scorer for East St. Louis was Hutto Jones with 6.

Behind Brooks and a "slow-down" style of play, the Flyers had Granite City worried for three quarters until Sullivan's cagers forced the host squad to play their type of ball. Playing cautiously, the Flyers held the score down to 11-10 and 25-21 in their favor, after the first two quarters.

But then the Granite City press began to grok and the combined hot shooting of Williams and Worham forced East St. Louis to play a faster game. With the score tied, 37-37, with 2:30 left in the third period, the Warriors put on a shooting show that carried over to the final quarter until they had a 56-46 lead. The losers never could get closer than five the rest of the way.

Other Granite City scoring included Knight 8, and McDowell 12.

## Industrial Second Place Playoff Game Wednesday

The Granite City Engineer Dept put the lid on the regular Industrial basketball league season Thursday night at the YMCA gym, stopping an Owens Paper Products five which was held to just three field goals in the first half but roared back to make a contest of it in the final quarter.

The 50-46 decision gave the Engineer Dept a 5-5 record for the season, while Owens finished at 2-8. The game set the stage for additional action in the league, a single playoff game between A. O. Smith Corp. and Granite City Trust and Savings Bank, which finished the season in a tie for second place.

The two teams will meet at 7:30 p.m. Wednesday at the "Y" to determine the pairings in the first round league playoffs one week later.

The winner will draw a first-round bye, and will meet the squad which gets the best of the playoff schedule at 7 p.m. Feb. 17. At 8:30 the same evening, the Engineer Dept will meet Owens Paper, with the winners here to meet league champion Granite City Steel Co., favored with a first-round bye.

Playoff semifinals will come up on Feb. 24, and games for first place and consolation later.

Fred Hepp collected 24 points for Thursday's winners in three quarters before fouling out, while Hal McGinnis paced Owens with 21.

Collinsville registered its 19th win in 20 starts in Madison Saturday despite a 26-point performance by Ed Walker.

The score was 68-52.

The Kahoks used a 2-3 zone in trying to stop Walker, but he kept scoring anyway. The Trojans were bothered by a press in the first half. They lost the ball on miscues seven times in the first quarter and six in the second.

Collinsville jumped to a 17-8 lead in the first quarter but

## Red Devils Run Rampant, Roll Over Worden 99-68

Venice's Red Devils scored 56 points in a great second half Friday night to blast Worden in an MBQ conference game on the Venice floor, 99-68. The just shy of the century mark total and the 40 field goals pumped through the hoop by the winners were both high marks of the season as far as Quad-City prep basketball squads are concerned.

Venice's Clarence Hand, taking the lead scoring crown, scored 24 points, and the team mates and raised his conference average to 27 points a game with a 35-point effort.

After moving to a 21-11 first period lead, Zahn Walker kept his troubles with the Trojans and forward Jim Van Horne in the second quarter. The visitors crept to within six before two quick buckets by Woody Wood and another by Hand put Venice ahead by 12 at halftime, 45-33.

**GC Wrestlers Top Ritenour, 24-15, Brewer Loses 1st Bout**

In one of the closest matches of the year, Granite City nipped Ritenour of Overland, Mo., 24-15, in a wrestling match Friday afternoon on the losers mat.

The visitors won only six of the 12 bouts but Ritenour took only three, as three ended in draws. One of Granite City's losses was in the 180-pound class when Dave Brewer, undefeated going into the bout, was defeated by Ritenour's Bill Hartzell, 7-0. Hartzell was also undefeated.

Another top winner of the current Granite City squad, Bill Ridenour, had better luck as he defeated Bob McClosky, 5-3, in the heavyweight class. Ridenour now has a 20-1 season record, only three short of the school record.

The Warriors have beaten the Huskies, defending Missouri state champions, in 10 of 11 meetings between the two schools.

Other results: 95—Brisky (GC) won his sixth in a row, beating Bill Moore, 6-5; 103—Taylor (GC) won his 19th of the year, edging Bob Guilliams, 3-1; 112—Fehel (GC) drew with Olney Mueller, who had a 13-0 record; 140—Parkinson (GC) drew with Tony Latore, 1-1; 127—Bloodworth (GC) drew with Bill Keller, 8-8; 133—Whitehead (R) defeated Brawley, 7-5; 138—Fazio (GC) defeated Stefan 4-2; 145—Poole (GC) defeated Puraley, 2-1; 154—Covison (R) defeated Wallace, 6-4; 155—Craft (GC) defeated McIn-

## Bid For Mad-Claire Crown By Dunbar Falls Short, 47-43

Behind 16-20 at halftime, Dunbar rallied and held a 38-24 lead as the final period began. Belleville popped in 23 points in the final quarter, a good portion of them on free throws. The visitors hit 15 of 25 charity attempts.

With second place in the conference clinched, Dunbar closes its season Wednesday night at Dupo grade school in a 6:30 contest. The Madison school is 11-2 on the season.

## Reports On Area Youth Needs At Ill. National Conclaves

Quad-Cityans will be among the Madison county delegates to the Illinois 1960 White House Conference on Children and Youth in Springfield Thursday, Feb. 23, and Wednesday, Feb. 24, it was announced today.

Purpose of the two-day session will be to make advance preparations for the "golden anniversary" national conference in Washington, D. C., in March. Among those attending the state meeting will be the 130 Illinois delegates to the nationwide conference, among whom are Robert Gibson of Granite City, state AFL-CIO community services director.

Committee leaders preparing a Madison county report on children and youth included Miss Evelyn Cunningham, Illinois Public Health Department nurse in the Quad-Cities, and George E. Moore, 1929 Quad-Cities, Illinois PTA District 29 school finance assistant and Granite City Area PTA Council legislative chairman. Moore is technical director of the Engineer Packaging Technical Office at the Engineer Depot.

Miss Cunningham served as chairman of the health committee of the county study, and Moore led the study on leisure time, character-building and recreation. Other phases of the study were education, religion, family living and vocational counseling, training and work.

Local Committee Members Committee members included Edwin Wagner, Rural Route One, Granite City, district PTA juvenile protection chairman; Robert Dunt, chairman of the Madison area of the study and YMCA physical department director; Rev. Engelbert Blinn, pastor of St. Mary's Catholic Church, Madison; Miss Nina Dittman, Madison school nurse; and Venice School Supt. John O. Pier.

With the aid of the local report and other county surveys, a state report on youth services and needs has been prepared and will be discussed in workshop meetings during the Springfield conference. General theme will be "Prepare Today's Youth For Tomorrow's World," and the findings will serve as guides to the representatives to the national convulse, as well as for follow-up plans throughout Illinois.

Mrs. Perry Lindley of Springfield is conference arrangements chairman, and Mrs. Robert L. Foote is head of the Illinois delegation.

**OF ALL DANGERS THE GREATEST IS TO THINK LIGHTLY OF THE FOE!**

Constantly about us are countless numbers of germs and virus awaiting the opportunity to attack our body. Some unknown blind instinct urges them to multiply. If this increase is not stopped life is endangered.

Fortunately we now have potent antibiotics and sulfa compounds. If taken before these germs and virus have had sufficient time to weaken the body's resistance, a cure usually results. Therefore, it is extremely important, at the very first symptoms of any ailment, a physician be consulted. It is dangerous to treat any sickness carelessly.

## Madison Teen Valentine Dance Wednesday Night

The annual valentine dance of the Madison Teen Town will be held Wednesday evening at the Madison Memorial Recreation center, Seventh street and Levee, where it has been extensively decorated for the occasion.

Dancing will last from 8 to 11 p.m. Music will be provided by an orchestra obtained through local music grant from Local 717 American Federation of Musicians.

**Vocational Counseling**  
Vocational counseling, training and work—The major need throughout the area seems to be financial. Counseling and guidance services are gradually being improved in the schools. The National Defense Education Act will help in time if a proper budget is provided. Also, state and federal support for technical education will help.

Colleges are doing a good job in some cases and government services also help. The schools are doing a better job, but leave much to be desired in the placement program. Illinois State Employment Service functions are being recognized and should be expanded more than they are now.

There also is a need for qualified and trained personnel in vocational guidance. This is especially inadequate at lower levels. Students come to vocational programs with insufficient background to meet the present-day demand for skilled labor.

Recommendations are for better programs in the schools through more financial aid; an agency to help and actively follow-up on school leavers; expansion of college placement services; paid placement personnel; many civic organizations and after-training placement services to secure jobs for which they are being trained.

Survey of Religion Religion—An increase in membership and a boom in the building program of practically all faiths have taken place. Gains are being made, in the larger towns, in awareness of community problems and in solving them. All faiths contribute generously to institutions of their denomination.

The teenage group seems to be the hardest to reach and interest in the church. This is probably caused by a lack of up-to-date programs for this group, and extracurricular activities of the schools and other organizations. Too many people still expect the schools to assume responsibility.

Emphasis could be placed on the training and counseling programs, with fund allocated for adequately-trained directors of religious education and other church and youth leaders. A religious basis is needed for understanding of marriage, pre-marriage, counseling and human relationships.

There is a need for religious tolerance among faiths, and a closer relationship of all people in a community. This need is greatest in small towns and rural areas. There is some scheduling of community activities by cooperation of the church, school and other community groups. Active ministerial alliances are needed, and understanding of different faiths should be encouraged.

**Health Program**  
Health—The health program, though improving, is far from meeting the needs. Gains include increased health interest and action by service groups and civic organizations. There is some interest in a county health department and improved school health programs.

The needs are adequate mental health clinics, dental clinics, sight and hearing clinics and more active medical, dental and mental health societies on a county level.

Also needed are adequate diagnosis and treatment for physical illness among the low economic and indigent groups. The schools are handicapped in the field of special education by lack of finances, facilities and qualified facilities needed for such programs, especially more school nurses in most areas.

## Deadline Friday To Apply For Steelworker Scholarship

A reminder was issued today for the Friday midnight deadline for graduating high school seniors of the area to make application for two \$4000 scholarships to be awarded to sons and daughters of members of United Steelworkers of America, District 34.

Lloyd McBride, local subcommittee director, said no tabulation has been made of the applications to date, but stressed that any members of a high school class graduating between Jan. 1 and July 1 of this year, who is certified by the high school principal and who is either a member, the son or daughter of a member of any local in the United Steelworkers, is eligible to compete.

The competitive scholarship examination is to be held Feb. 27, with testing center to be located in Granite City. Application forms are available at local high schools as well as at the United Steelworkers district office, 19th and State streets. They are to be postmarked not later than midnight Feb. 22.

The examination, McBride explained, will be in the nature of a scholastic aptitude test. "There is no special way of studying for the examination and no questions about its nature can be answered."

The tests will be taken anonymously with papers identified only by a number. The papers are to be scored by an organization outside the United States, through the use of an electric test scoring machine. Individuals who are awarded scholarships will have arrangements made for payment of their tuition upon presentation of proof they have been accepted as a freshman student in an accredited institution.

The scholarship are entirely unrestricted as to sex, race, religion and political affiliation. In recent years, two Quad-City area youths have won the coveted scholarships.

**Local Defendants In \$85,000 Injury Suits**

Quad-Cityans were named as defendants by pedestrians in two traffic accident injury suits filed last week in the circuit court at Edwardsville. Damage claims total \$85,000.

Verna Smith is seeking \$30,000 from Mrs. Opal L. Bolton, 6229 Minnesota avenue, alleging that a car operated by Mrs. Bolton had been parked but jumped a curb and knocked her to the sidewalk at Third street and Madison avenue, Madison, Feb. 13, 1959.

Charging carelessness and negligence, she asks judgment for permanent and serious injuries to the back and nervous system. She contends that she has been unable to work.

In another suit, Minnie Reynolds seeks \$55,000 for herself and her son, Derrick Ross, then seven years old, for injuries allegedly received by the boy Feb. 26, 1959, when struck by the auto of William Thieman, 1108 Oak Street, Venice, on South Second street, Brooklyn.

The boy allegedly was crossing the street and received a right leg fracture, scars, disfigurement of the face and other injuries. She asks \$5000 for medical treatment costs and \$50,000 on behalf of the boy.

## Mrs. Maples Displays Doll Collection In Special Room

Anyone who says loving dolls is for youngsters could have a fight on his hands from a "young" graceful lady of 60 who has been collecting the universal play items for the past 20 years.

"Whenever my granddaughter wants to give me a present for Christmas she just says, 'Let's give her a doll,'" laughed Mrs. Nellie Maples of 2730 Grand avenue. "Everybody knows what I want."

Mrs. Maples has over 275 dolls collected either as gifts or during her personal tour of 32 countries on mission work and vacations.

The dolls, representing 32 nations, are arranged neatly in three cabinets of a special room in her two-story brick home. Her husband, Jackson Maples, is retired from General Steel Castings Corp.

Her unusual collection, which also includes clothing, plates, charms and other artifacts from various cultures of the world, got started in a serious way during world war II.

"I was young people's superintendant at the Third Baptist Church, here in Granite City, and met many soldiers who were stationed at the depot or passing through," Mrs. Maples said.

In the course of inviting them over to our house for dinner, Jackson and I grew to know some of them quite well and they started sending me dolls as presents after they left."

Visits Cuba First

With a modest start, the collection got a boost in 1946 when Mr. and Mrs. Maples went to Cuba for a vacation to celebrate a wedding anniversary.

But shortly afterwards, Mrs. Maples started her world touring in an extensive manner when she returned to Cuba with a group of Baptist women from Illinois in a trip visiting church missions in that country.

In the next nine years other mission trips followed including a long tour through nine countries in Europe and the Middle East. In all these trips Mrs. Maples bought dolls and other items of the countries she visited. Mr.

The hobby room which houses this collection is filled with other things besides dolls. In one corner there is a 100-year-old organ which still plays, an old coffee grinder hangs from the wall. Mr. Maples changed it into a light to give the room atmosphere plus modern conveniences, and there is also a 70-year-old church communion set.

"I guess some people wouldn't give a dollar for all these things in this room," Mrs. Maples answered when asked how much she thought the collection was worth. "But I wouldn't take a million."

Some of the dolls are worth up to \$50, especially the ones from Germany, while others are valued at only a few dollars.

"We've often thought about having an open house to show everybody who might be interested, but nothing has come of it," she said.

She has dolls from 24 inches tall to several not much larger than a photograph needle. Some are 70-80 years old and others are quite new.

A doll of which she is especially proud is one which Mrs. Maples worked on herself. She made the outfit and fitted the doll with hair from her seven-year-old granddaughter's head.

Another she treasures about the others is a Chinese girl doll with a dainty red kimono. Other dolls include a mummy reported to be from an ancient Egyptian tomb, German with bright colorful native costumes, American Indian, Jewish and Russian dolls.

## Restrooms At Wilson Park To Be Revamped

Plans to erect new restrooms were abandoned for the present by park commissioners who decided during a special meeting Thursday night to revamp the present facilities.

Board President Barry Loman said the district's financial condition would not permit any new construction and will actually limit the remodeling work, which is scheduled to be undertaken before the playground is opened this spring.

Announcement was made that playground equipment ordered last year should be delivered late in March. Loman explained the district, which has not yet received final settlement of 1958 taxes from the county, has arranged to pay for the new equipment after 1959 tax money is collected later this year.

The equipment, similar to that installed early last year at Tri-City Park, the newly-acquired playgrounds on Franklin avenue and behind the Nameoki road fire station, at the Lincoln Place Community Center and at Wilson Park.

Truck Hits Wall  
Clinton Julian, 33, of 1635 Minerva avenue, was charged with destruction of property about 1:05 a.m. Sunday when he was driving north on Nameoki road and ran off the pavement in his truck and crashed into a concrete retaining wall at 2508 Nameoki road. He posted his chauffeur's license with police and was freed.

Speeding Ticket  
Nyle W. Wright, 25, of 3912 Nameoki road, was issued an arrest ticket at 22nd street and Madison avenue Saturday afternoon by Granite City police on a charge of speeding. He posted his driver's license as bond.

## THE FABULOUS 40 HOURS

OCTOBER 21st, 1879—Thomas Edison tests first practical electric light.

...that did more for better living than the preceding four thousand years of recorded history

THE PLACE: a workshop in Menlo Park, New Jersey. The time: October 21st, 1879. A young man named Thomas Alva Edison reaches for a length of black cotton thread.

With practiced hands, he attaches it inside a glass globe, which has been pumped free of air. While his helpers hold their breath, he puts an electric current through the fragile-looking device.

Wonder! The filament lights the globe with a steady glow. And stays

that way for minutes, for an hour—all day, and all night. A sleepless watch is kept by the inventor and his friends. The first efficient, practical electric light burns on—for more than forty hours!

This historic "break-through" has led to countless electrical developments which, in 81 short years, have done more for human well-being and comfort than all the Pharaohs, Caesars, and Napoleons of history put together. Think what life would be like without electricity! Thank you, Mr. Edison.

Rock of Morgan, Utah. The three o'clock double-ring ceremony was performed by Bishop O'Dell of the Church of Jesus Christ of Latter Day Saints, East St. Louis.

The bride was given in marriage by her father. She wore a traditional floor length gown of chantilly lace and nylon tulle, designed with a portrait neckline and long full sleeves tapering to points at the wrists. The fitted bodice, shirred with misty tulle, created a tunic effect with lace inserts dipped into points below the waistline.

A voluminous skirt, free of gathers, was further extended with hoops and crinolines, and the satin train was draped in intervals around the entire skirt. Three corresponding bows were attached to the bodice, the length of the train of pure silk illusion. The former Miss Fox wore a white Ekle overalls with moth erchids and stephanotis, trailing a shower of satin tulle.

Miss Pansy Smith was the bride's maid of honor, and her bridesmaid. Her walk length train of pale blue and white nylon chiffon over taffeta, was

## NEVER BEFORE . . . .

Never before in the history of the world has education and enlightenment meant so much. This is especially true for the American people. The last twenty years have torn Americans out of their cocoon of isolationism, so earnestly preserved, and catapulted them into an unaccustomed position of responsibility and leadership among the nations of the world. As a consequence, Americans now find themselves in the forefront of a titanic social, economic, scientific, ideologic war in which defeat will mean extinction for the way of life they so cherish.

The Guadalcanals, Remagens, Iowa Jimas and Salernos of this new kind of war will take place on the campuses and in the classrooms of the colleges and universities. It is therefore imperative that each American encourage and become acquainted with their institutions of higher learning and the students who attend them.

You who read this are fortunate in that near you are three of the finest of these institutions: Southern Illinois University, Monticello College and Blackburn College.

In order that you may not only become better acquainted with these schools and their students but also that they in turn may benefit from your increased knowledge, we take great pleasure in making the following announcement:

During 1960, beginning February 6th, each of the above schools and their students will present six half-hour programs over Radio Station WOKZ in Alton. The programs are entitled "The Voice of the Campus." The faculty and students of each school will prepare and present these programs.

## Exterminators Top Spengler Oil; Classic Loop Is Deadlocked Again

First place in the Granite City park district's Classic basketball league is still up for grabs. Spengler Oil and the Modern Exterminators were back in a two-way tie for first place for the second time this season after the Exterminators had tripped Spengler 90-81 in a rough contest Thursday night at the Coolidge Junior high school gym.

The Teachers climbed a notch in the standing in Thursday's first game by turning back Friedman's of Madison, 77-66.

Bob Miller, rapidly leaving everybody else behind in the individual scoring race, popped in 14 fielders and eight free throws to pace the Teachers, who won their second straight after five consecutive losses. Roger Wells hit 23 for Friedman's.

Dave Hryko, second to Miller in individual scoring, held that position as he hit 31 points for the Exterminators. Bob Page added another 17. Jim Reiter dunked for Spengler Oil, and teammate Jim Bain had 15.

The winners had two excellent scoring quarters, topping the Spengler five by five points in the third. Modern led at intermission, 44-33.

## Lincoln Tops Vashon 67-61 Here Friday

Eight miscues in the last quarter almost cost Lincoln its game here Friday night.

With Vashon of St. Louis pressing, the Rams were called for traveling four times and had ball handling three times and made one bad pass before finally gaining a 67-61 win.

The Rams shot 35% compared to Vashon's 42%. The quarter scores were: Lincoln 10-15, 46-29 and 58-45. The halftime lead was the largest margin, and the losers played a different game in the last half, constantly whiffing down the margin until they came within five points in the last quarter.

Four free throws by a Lincoln club, Charles Hatter, in the last minute led the game. Richie Butler had 18 for Vashon while Bob Davis poured in 21 for Lincoln. Other Ram totals were: Hall 13, Felton and Davis 12, Franklin 5, and Hatter 4.

## VENICE RELIEF COSTS RISE LAST MONTH TO \$13,400

January relief costs in Venice township reached the highest level since April of 1959, although the number of cases handled decreased for the fifth straight month, figures released by Township Supervisor Arthur W. Moore revealed today.

Costs in January totaled \$13,478, a \$1155 increase over December and the highest month since April. The increase, however, corresponds closely with costs during other years' first month. January costs in 1959 were \$13,106, and in 1958 they were \$9869. Both were over \$1000 more than the preceding month and the highest since the previous April.

This January's cases involved 185 families and one nursing home patient, including 506 persons. This is the lowest number of people receiving aid since August.

For the fiscal year, which closes at the end of March, the total cost has been \$117,849 with 1613 cases involving 4887 people. Persons receiving aid are counted.
